18f-front-office	9/7/2018	Alan Brouillette (Chicago / he)	First swing at a post that I am fully aware is a draft, as I do not have all the details: ``At the direction of GSA Press Office and OGC, Dom Sale has directed us to take down the "guys bot" blog post. We objected to this, and it was noted but overruled. (The "guys bot" remains active, as you will no doubt be reminded when I post this.) This is an FYI, and we are also not happy. Please feel free to have your reactions, but also to maybe first reflect on what you say in this subject-to-FOIA medium. See you at Team Coffee.``	42:50.0	TRUE
